Oz:

We appreciate the Office of Security serving as the "guinea pig" on the classified bulletin board and your report of 28 February 1973. However, it would be helpful if someone could take an informal poll of the employees having access to the board and add a brief statement or two about their opinions of the value of the endeavor.

It seems that this old  
Construct will never go away!

While the OS experiment  
is inconclusive and the  
memo is lacking a  
recommendation, I

Conclude that OS  
would be pleased  
to see the Concept  
succumb to higher priority  
interests.

However, we probably  
should ask OS to poll  
the employees and  
summarize their reactions  
before reporting to WEC.

If you agree, I'll handle. L

MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Classified Bulletin Board

1. This memorandum is for information only.
2. A Classified Bulletin Board has been installed in the Security Records and Communications Division of the Office of Security, Room GE-19, Headquarters. It is prominently located and easily accessible in the Division's major work area. This area is a secure area and restricted to personnel assigned to the Security Records and Communications Division and general access by personnel of this Office is limited to a "need-to-have-access" basis.
3. In view of the limited access to the area in which the Classified Bulletin Board is located, the criterion applied in selecting items for posting has been whether it would be useful to the Division's 85 employees. To date color photographs of the DCI, DDCI, DDS, D/S and DD/SEC; statements of the mission and functions of the Office of Security and the Security Records and Communications Division; training notices; job vacancy notices; and, items on the suggestion award program, retirement and on-the-job injuries have been posted.
4. During the past several weeks in which the Classified Bulletin Board has been established, employees of the Security Records and Communications Division have been observed to read the posted material but have not expressed any particular reaction to the idea of a Classified Bulletin Board.

SUBJECT : Establishment of a Classified Bulletin Board

REFERENCE : Memo for DD/S from D/Sec, dated 26 June 72, Same Subject

1. This memorandum is for your information only.
2. Pursuant to the Executive Director's desire to explore the feasibility of classified bulletin boards, this Office will soon conduct a controlled experiment. We plan to operate such a board within the confines of one of our largest divisions. After a suitable time period, we will attempt through questionnaires to measure personnel reactions and apparent managerial benefits. The results of our study will be reported to your Office early in the new calendar year.

As you can see from the attached notes, the Executive Director is still very much interested in the Classified Bulletin Board proposal. Mr. Coffey noted Mr. Colby's 13 November comment and suggested that you may have further thoughts on this subject that he could discuss with the Executive Director.

It would be helpful if we could have your comments by 23 November.

SUBJECT : Establishment of a Classified Bulletin  
Board

1. This memorandum is for your information only.

2. [REDACTED] Executive Officer, Office of Scientific Intelligence, DDS&T, advised on 23 June 1972 that the Director, OSI, Doctor Donald Chamberlain, discussed the establishment of a 'Classified Bulletin Board' during a recent staff meeting. Dr. Chamberlain determined that this project was not feasible and therefore is no longer under active consideration.

"Classified Bulletin Boards

"5. The Executive Director noted the possible value of having a bulletin board in various offices on which classified material of general interest to that office and to the Agency could be displayed. The Director of Security interposed no objections provided the bulletin boards were placed out of visitors' view and the material thereon secured after hours. A brief discussion followed, and the DD/S&T said that he will ask the Director of OSI to try this for a period of time and that he would then report back to the Deputies on OSI's experience. "

SUBJECT : Bulletin Boards

Jack:

I have had a quick survey made of what is available in bulletin boards and the cost of installing them in the various overt buildings in the Washington metropolitan area. The vinyl-covered homosote boards listed in Attachment 1 are similar to the boards presently installed in the elevator lobbies at Headquarters. As they are made in-house, they can be furnished in a variety of sizes. The 24- x 38-inch size, for example, more conveniently accommodates eight 8- x 10 1/2-inch notices than the 24- x 36-inch standard size commercial board, also listed. The in-house boards may also be left up or removed from the wall as desired. Attachment 2 contains some additional data on commercial boards, as well as sketches of the in-house products.
